

## AD248- Red Hat JBoss Application Administration I

- **Overview of JBoss Enterprise Application Platform (JBoss EAP)**
  - Learn the concepts and terminology of JBoss EAP 7.
- **Install and run a JBoss EAP instance.**
  - Understand extensions, profiles, and subsystems.
- **Configure JBoss EAP in standalone mode**
  - Run and configure JBoss EAP in standalone mode.
  - Configure interfaces and socket binding groups.
- **Script configure and deploy applications**
  - Configure JBoss EAP with command line interface.
  - Deploying applications in standalone mode.
- **Configure JBoss Enterprise Application Platform as a managed domain**
  - Run JBoss EAP as a managed domain.
  - Assign a domain controller.
  - Configure a host controller and domain controller.
- **Configure servers in a managed domain**
  - Manage domain server architecture.
  - Configure servers and server groups.
- **Configure datasources**
  - Explore the datasource subsystem and configure JDBC drivers, datasources, and an XA datasource.
- **Configure the logging subsystem**
  - Configure loggers and logging handlers.
- **Configure the messaging subsystem**
  - Explore the messaging subsystem.
  - Configure messaging resources, journals, and other settings.

- **Secure JBoss EAP**
  - Configure a database security realm, an LDAP security realm, and password vault.
  - Secure a JMS Destination.
- **Configure the Java Virtual Machine (JVM)**
  - Configure the JVM in standalone mode and in a managed domain.
- **Configure the web subsystem**
  - Explore and configure the features of the web subsystem.
- **Deploy clustered applications**
  - Explore clustered applications.
  - Configure subsystems that support clustered applications and configure load balancing.
  - Deploy HA Singleton applications.
- **Configure the batch subsystem**
  - Explore and configure batch jobs and batch subsystem.
- **Discover new features in JBoss EAP 7**
  - Explore the new features in JBoss EAP 7.
  - Migrate JBoss EAP 6 applications to JBoss EAP 7.
- **Comprehensive Review of Red Hat JBoss Application Administration I**
  - Review the tasks in Red Hat JBoss Application Administration I.
